

fixturesfurniture

an izzy+ company

This community college needed a table that allowed three students to work in a math lab. The unique shape of our Fixtures Dewey '6 Top' table, ganged together, allows the professor to work with each student without disturbing the other students at the table. Note that the tables are available in both seated and counter height.

To learn more about the complete Fixtures Dewey line of tables please call us at 419-874-1946 or log on to izzyplus.com.
